

DAR

Innovative Designs. Visionary Approach

Our global business spans across three continents with dedicated offices in Saudi Arabia, India, Egypt, Pakistan, United Kingdom and Portugal. Our team of 2,100+ engineering and design professionals provide comprehensive and sustainable world class design and management solutions for our clients that focus on quality, innovation and safety.

To date, our teams have delivered over 10 million square meters of BUA across building projects worth an estimated US\$12 billion. We are committed to the pursuit of delivering innovative, commercially viable and high quality solutions to our clients while prioritizing safety and sustainability. In an effort to deliver such solutions, we encourage a collaborative culture, where team members are empowered to contribute their unique skills and perspectives across our projects.
